45 Brisbane Road #20, North York, ON

Concrete Repair

Overlooking structural concerns like concrete damage is not an option when it comes to maintaining commercial and residential buildings. Our team focuses on the reparation of cracks, spalling, and degradation of hard to reach concrete surfaces.

Caulking & Leak Repair

Our technicians can also inspect the condition of your window caulking upon request. We can remove old caulking materials, insulate the windows if needed, and apply new caulking for a long lasting and durable seal.

Exterior Painting & Touchups

After a while, the outside of your residential or commercial property can become weathered due to external elements like wind, rain, snow, and debris buildup. Our professional outdoor painting services can help revamp your property and make it look brand new again!

Vent Cleaning, Repair & Replacements

Just because you cannot see inside your vents, does not mean you aren't breathing what comes out of them! Over time, air vents collect a great deal of dirt, dust, mold, fungus, construction debris and other potentially harmful allergens that can negatively impact the air quality in your workplace or home. Our technicians can clean or replace damaged air vents as needed.

Anchor & Exterior Building Inspections

The wear and tear that Canadian weather conditions place on buildings can grow to be dangerous. That's why it's important to conduct regular inspections of buildings to spot any damages before they develop into what could be serious structural issues.

Solar Panel Cleaning

Keeping solar panels clean and well maintained will ensure their longevity, however accessing solar panels can come as a challenge. Our team can access those areas with ease, and get solar panels restored quickly and efficiently.

Pressure Washing

Our pressure washing services are ideal for not only underground garages, but also awnings, walkways, and building siding. This is a great service for any commercial, apartment or condominium property.

Underground Garage Cleaning

An underground garage is a busy place; leading to a build-up of oil, dirt and debris over time. Maintaining these areas is important to ensure users of these spaces are happy, and safe. We offer garage cleaning for commercial, apartment and condominium properties.

Why Choose Canada Wide?

At Canada Wide we pride ourselves with the best customer service as our customers come first. We use qualified and capable technicians for each of our services to assure the best outcome.

Canada Wide specializes in **Rope Access** work for **high-rise buildings** across many sectors. Rope access means we do not use swing stages, or any large equipment. Instead, our trained rope access technicians are able to access hard to reach areas using only a rope and harness.

With minimal equipment, and **less time needed for set up and tear-down**, rope access is not only a safer option, but a more **affordable option!**
